Jungle Jump Instructions

Introduction

This intuitive game enhances the classic platform game experience bringing an all-new Jungle theme to the market. It embodies the straightforward controls of previous platform games while bringing a fresh set of challenges that the player can enjoy. Version 1.0 (i.e., the current version) offers players a thrilling and captivating experience through the fundamental elements of the game.

Objects

Monkey: The main character.

Banana: Collectables to be used for scoring.

Platform: Solid surfaces where the main character can find collectables.

Object Behavior

Monkey: The main character can move left, right, and jump.

Banana: The collectibles spawn randomly on platforms where they can be collected by the main character resulting in a score increment.

Platform: The moving platforms spawn in two different sizes (small and large) at random with a leftward velocity.

Player Controls

Gaming Peripherals: Keyboard and Mouse

Move: Use the A and D keys or the left and right arrows to move left and right.

Jump: Press down on the space bar to jump.

Game Fundamentals

Objective: Collect as many collectibles as possible without falling off the platforms.

Scoring: The score is increased by 1 point for every collectible that is collected.

Dying: If the player falls off the platform or the player goes off the left side of the screen the game will be over.
